

Crochet-Style Yarn Pumpkin

Materials

- Medium weight yarn (worsted weight, Category 4) – assorted colors
- Foam pumpkin (approx. 18–22 cm diameter) or DIY stuffing
- Wooden stick (stem)
- Jute twine or yarn for stem wrap
- Felt sheets (green, yellow, orange)
- Scissors
- Hot glue (optional)
- Yarn needle

Stitches & Techniques (U.S. terms)

Chain (ch)
Basic starting stitch.

Slip Stitch (sl st)
Joins and finishes.

Single Crochet (sc)
Tight, firm stitch used for leaves.

Half Double Crochet (hdc)
Slightly taller stitch.

Double Crochet (dc)
Taller stitch, used for larger leaf shapes.

Treble Crochet (tr)
Extra tall stitch for pointed leaf details.

1 Prepare the base

Use a foam pumpkin (about 18–22 cm diameter). You can also stuff a fabric pumpkin with fiberfill.

2 Cut the yarn strands

Cut yarn strands about 60–70 cm long. Prepare several strands in each color.

3 Attach the first strand

Secure one end of a yarn strand at the top (use a pin or a little glue). Bring the strand down, follow the pumpkin's curve, and secure at the bottom.

4 Add more strands

Continue adding yarn strands side by side, changing colors to create a striped effect. Keep the tension even, covering the entire pumpkin.

5 Finish covering

Work around the pumpkin until the whole surface is covered. Adjust the strands so they are even and snug.

6 Make the stem

Use a small wooden stick for the stem. Wrap the top of the pumpkin with jute twine or yarn and glue the stick in place.

7 Crochet leaf templates

Make leaves using sc, hdc, dc and tr. Follow the patterns below.

8 Add the leaves

Attach the leaves around the stem with twine or glue. Add a bow with jute twine for a rustic touch.

Leaf Crochet Patterns

Large Leaf (green)

Ch 14

Row 1: sc in 2nd ch from hook, hdc, dc, 2 tr, dc, hdc, sc, sl st. Work the other side: sc, hdc, dc, 2 tr, dc, hdc, sc. Fasten off and weave in ends. Use yarn needle to sew details with brown yarn.

Medium Leaf (yellow)

Ch 12

Row 1: sc, hdc, dc, tr, dc, hdc, sc, sl st. Repeat on the other side. Fasten off. Add vein details with brown embroidery yarn.

Small Leaf (orange)

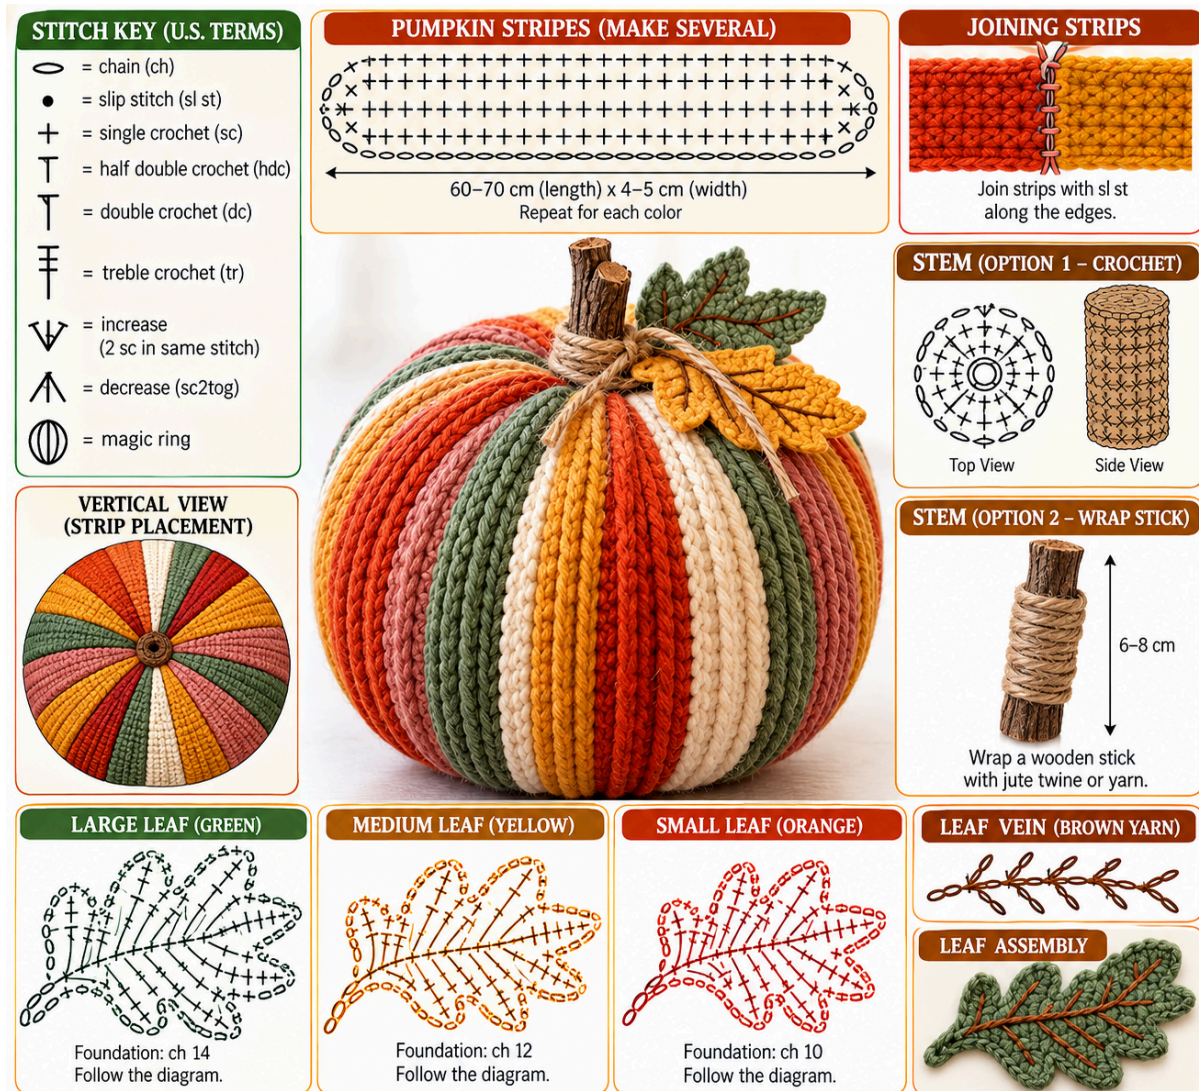

Ch 10

Row 1: sc, hdc, dc, hdc, sc, sl st. Repeat on the other side. Fasten off. Add veins with brown yarn.

Final Result

Crochet-Style Yarn Pumpkin Pattern – Complete Step-by-Step Fall Decoration Tutorial 🎃 🍂

The Crochet-Style Yarn Pumpkin Pattern is a beautiful autumn craft that combines colorful yarn, rustic textures, handmade crochet leaves, and simple decorative techniques. This charming pumpkin is perfect for decorating a farmhouse table, fall mantel, Thanksgiving centerpiece, or cozy seasonal corner of your home.

<https://creative.craftsforlove.com/> - **SEE THE BEST PATTERNS**

One of the most appealing features of this project is its combination of warm fall colors. Shades of burnt orange, mustard yellow, cream, olive green, and dusty rose create a rich, striped appearance. A natural wooden stem, wrapped with jute twine, completes the rustic design, while three crocheted leaves add a lovely handmade finishing touch.

Although the finished pumpkin looks like an elaborate crochet creation, the pumpkin body is actually made by wrapping yarn around a foam pumpkin. Only the decorative leaves require crochet stitches. This makes the project accessible to beginners who are still learning crochet while offering experienced crafters an opportunity to experiment with colors, textures, and embellishments.

This complete tutorial follows the eight construction stages and three leaf designs shown in the reference chart. All crochet instructions use U.S. terminology, with additional explanations to help beginners complete the project from start to finish.

Step 1: Gather Your Materials and Learn the Basic Crochet Stitches

Before starting, organize your materials on a clean work surface. Keeping your yarn separated by color will make the wrapping process easier and help you achieve the evenly striped appearance shown in the tutorial.

Materials needed

For the pumpkin body:

- 1 foam pumpkin, approximately 18–22 cm (7–8.7 inches) in diameter
- Medium-weight yarn (Category 4, worsted weight)
- Burnt orange yarn

<https://creative.craftsforlove.com/> - **SEE THE BEST PATTERNS**

- Mustard yellow yarn
- Cream or ivory yarn
- Olive green yarn
- Dusty rose yarn
- Rust-colored yarn
- 1 small wooden stick for the stem, approximately 8–12 cm long
- Natural jute twine
- Scissors
- Yarn needle
- Craft glue or a low-temperature hot glue gun
- Measuring tape

For the crochet leaves:

- Small amounts of olive green, golden yellow, and burnt orange yarn
- Crochet hook, approximately 4.0–5.0 mm
- Brown embroidery yarn for leaf veins
- Yarn needle
- Stitch markers, optional
- Pins for shaping and blocking, optional

Understanding the crochet abbreviations

The reference chart uses common American crochet abbreviations.

Abbrevia tion	U.S. crochet term	Description
ch	Chain	Foundation stitch

<https://creative.craftsforlove.com/> - **SEE THE BEST PATTERNS**

sl st	Slip stitch	Joining and finishing
sc	Single crochet	Short, firm stitch
hdc	Half double crochet	Medium-height stitch
dc	Double crochet	Taller stitch
tr	Treble crochet	Extra-tall stitch
st	Stitch	One completed stitch
sts	Stitches	Multiple stitches
FO	Fasten off	Finish the crochet work

How to make the basic stitches

<https://creative.craftsforlove.com/> - **SEE THE BEST PATTERNS**

Chain (ch): Make a slip knot on your hook. Yarn over and pull the yarn through the loop. Repeat until you have the required number of chains.

Slip stitch (sl st): Insert the hook into the indicated stitch, yarn over, and pull the yarn through both the stitch and the loop already on your hook.

Single crochet (sc): Insert the hook into the stitch, yarn over, and pull up a loop. Yarn over again and pull through both loops on the hook.

Half double crochet (hdc): Yarn over, insert the hook into the stitch, yarn over, and pull up a loop. Yarn over and pull through all three loops.

Double crochet (dc): Yarn over, insert the hook into the stitch, yarn over, and pull up a loop. Yarn over and pull through two loops, then yarn over and pull through the remaining two loops.

Treble crochet (tr): Yarn over twice, insert the hook into the stitch, yarn over, and pull up a loop. Yarn over and pull through two loops three times.

These stitches create different heights, allowing you to form the pointed and rounded edges of the decorative autumn leaves.

Step 2: Prepare the Pumpkin Base

The first construction stage is preparing the foam pumpkin that will support the yarn covering.

1. Choose your pumpkin.

Select a foam pumpkin measuring approximately 18–22 cm across. A pumpkin with clearly defined vertical grooves works

<https://creative.craftsforlove.com/> - **SEE THE BEST PATTERNS**

especially well because these curves help guide the yarn from the top to the bottom.

A white foam pumpkin is ideal because the pale surface is less noticeable beneath lighter yarn colors.

2. Inspect the surface.

Check that the pumpkin is clean, dry, and free of loose foam pieces. Remove any existing decorative stem if it interferes with your planned wooden stem.

3. Locate the top and bottom centers.

Identify the depression at the top and the center of the underside.

These points will serve as the main attachment areas for your yarn strands.

4. Prepare the stem opening.

If the foam pumpkin has a suitable opening at the top, leave it accessible. Otherwise, carefully create a shallow opening large enough to hold the wooden stem securely.

Do not insert the stem permanently yet. It is easier to wrap the pumpkin before attaching the final decorative stem.

5. Plan your color arrangement.

Arrange your yarn balls in the following order:

Cream → mustard yellow → burnt orange → olive green → dusty rose → rust.

You can repeat this sequence around the pumpkin or vary the order to create a more natural, handmade appearance.

<https://creative.craftsforlove.com/> - **SEE THE BEST PATTERNS**

The reference design uses irregular groups of colored strands rather than perfectly equal stripes.

Step 3: Cut and Organize the Yarn Strands ✂️

The second stage in the reference chart involves preparing long strands of yarn to cover the pumpkin.

Cutting the yarn

Cut several strands approximately 60–70 cm (24–28 inches) long, as indicated in the reference.

This is a starting estimate rather than a universal measurement. The required length depends on the pumpkin's actual circumference, grooves, and how the strands are secured.

To determine a more accurate length:

1. Place the end of a measuring tape at the top center.
2. Follow one groove down the pumpkin's side.
3. Continue underneath and up the opposite side.
4. Return to the top center.
5. Add approximately 5–10 cm for securing the ends.

For a larger pumpkin, you may need longer strands.

Organizing the colors

Cut an initial group of approximately 10–15 strands per color.

Keep the strands in separate bundles to prevent tangling.

You will probably need additional strands as you work. The total number depends on the yarn thickness, pumpkin size, and how closely you position the strands.

Helpful preparation tip

<https://creative.craftsforlove.com/> - **SEE THE BEST PATTERNS**

Avoid stretching the yarn while measuring it.

Yarn that is stretched during installation can contract afterward, creating uneven tension or exposing the foam beneath.

Step 4: Attach the First Yarn Strand to the Pumpkin

The third stage begins the actual yarn covering.

Position the first strand

Choose a cream-colored strand to start.

Place one end at the top center of the pumpkin, close to the stem opening.

Secure the end with a small amount of craft glue or low-temperature hot glue.

Allow the adhesive to hold before moving the yarn.

Follow the pumpkin's curve

Guide the yarn down one vertical groove toward the bottom.

Keep it flat against the surface without pulling it excessively tight.

Continue the strand underneath the pumpkin and, if the length allows, bring it up the opposite side toward the top.

Secure the finishing end near the stem opening.

Alternatively, you can anchor each strand at the top and bottom separately.

Maintain consistent tension

The yarn should lie smoothly against the pumpkin.

<https://creative.craftsforlove.com/> - **SEE THE BEST PATTERNS**

If it is too loose, it may shift out of place. If it is too tight, it may sink into the foam or distort the surface.

Use a small amount of glue at the top and bottom, adding tiny hidden spots along the sides only when necessary.

Important: Hot glue can melt some types of craft foam. Test it on an inconspicuous area first, use a low-temperature setting, or choose a foam-safe craft adhesive.

Step 5: Cover the Entire Pumpkin with Colorful Yarn

This corresponds to stages four and five of the reference chart.

The objective is to cover the entire pumpkin with closely arranged strands while preserving its natural rounded shape.

Continue adding strands

Position a second yarn strand beside the first.

Follow the same top-to-bottom direction and keep both strands parallel.

Continue adding strands until you have a narrow cream-colored section.

Change to mustard yellow and repeat.

Next, introduce burnt orange, olive green, dusty rose, and rust-colored yarn.

Create the striped appearance

For a result similar to the reference image, alternate the width of the color sections.

For example:

<https://creative.craftsforlove.com/> - **SEE THE BEST PATTERNS**

- Cream: 5–7 strands
- Mustard yellow: 4–6 strands
- Burnt orange: 6–8 strands
- Olive green: 5–7 strands
- Dusty rose: 4–6 strands
- Rust: 5–7 strands

These quantities are suggested starting points, not fixed counts from the chart. Adjust them to suit the pumpkin's size and your yarn.

Work around the pumpkin

Rotate the pumpkin as you add each new group of strands.

Keep the strands close together, particularly around the widest part of the pumpkin.

Pay attention to the top and bottom, where the strands naturally converge.

Small overlaps in these areas are acceptable because they help conceal the underlying foam.

Check the coverage

When you believe the pumpkin is fully covered, inspect it from every angle.

Look for exposed foam, loose strands, uneven color sections, or gaps near the base.

Add individual strands wherever necessary.

Finish the yarn covering

Secure all remaining yarn ends at the top or bottom with small amounts of glue.

Trim any loose fibers carefully.

<https://creative.craftsforlove.com/> - **SEE THE BEST PATTERNS**

The finished pumpkin should have a soft, colorful surface with clearly visible vertical yarn lines.

Step 6: Make and Attach the Rustic Wooden Stem

The sixth stage adds the natural wooden stem.

This detail gives the pumpkin its farmhouse-inspired appearance.

Prepare the wooden stick

Choose a small, dry wooden stick approximately 8–12 cm long and 1–2 cm thick.

The reference image uses a rustic stick with natural bark.

Trim the lower end so that it fits securely into the opening at the top of the pumpkin.

Remove any sharp splinters.

Wrap the stem with jute twine

Cut approximately 30–50 cm of jute twine.

Apply a small amount of glue near the lower section of the wooden stick.

Attach one end of the twine and wrap it around the stem several times.

Keep the wraps close together to create a thick, textured band.

Secure the end with another small amount of glue.

Insert the stem

Apply foam-safe adhesive inside the opening at the top of the pumpkin.

<https://creative.craftsforlove.com/> - **SEE THE BEST PATTERNS**

Carefully insert the wooden stick.

Hold it upright until the adhesive begins to set.

The stem should remain tall enough to be visible above the decorative leaves.

Add a rustic bow

Cut another piece of jute twine approximately 25–35 cm long.

Tie a small bow around the base of the stem.

Leave the ends hanging naturally over the pumpkin.

Do not tighten the bow so much that it pulls the yarn covering out of position.

Step 7: Crochet the Large Green Autumn Leaf 🍃

The reference chart includes three crochet leaf designs.

The large green leaf begins with 14 chains and uses a combination of short and tall stitches to create its outline.

The written instructions below preserve the stitch sequences shown in the chart. Because the chart provides a simplified outline rather than a fully counted stitch diagram, the additional joining and shaping details are practical construction guidance.

Large green leaf pattern

Foundation:

With olive green yarn, make:

Ch 14

Row 1: First side

<https://creative.craftsforlove.com/> - SEE THE BEST PATTERNS

Starting in the second chain from the hook, work:

sc, hdc, dc, 2 tr, dc, hdc, sc, sl st

The two treble crochets create a taller section, giving the leaf a wider middle.

After completing this sequence, five foundation chains remain available for additional shaping.

Shape the first pointed tip

Work into the next available chain:

(sc, ch 2, sl st) in the same chain.

This creates a small pointed lobe.

Work a slip stitch in each remaining foundation chain toward the end.

Work around the end

At the final foundation chain, make a small turning group:

(sc, ch 2, sc) in the same chain.

Rotate the work so that you can crochet along the opposite side of the foundation chain.

Opposite side

The chart indicates the following stitch sequence:

sc, hdc, dc, 2 tr, dc, hdc, sc

Work this sequence along the available opposite-side chain loops, spacing stitches as needed.

Finish with a slip stitch near the base.

<https://creative.craftsforlove.com/> - **SEE THE BEST PATTERNS**

Create additional leaf lobes

To give the leaf a fuller maple-inspired appearance, you can add small pointed lobes along the outer edges.

Attach the yarn to a suitable edge stitch.

Work:

sc, hdc, dc, ch 2, sl st

Fasten off.

Repeat on other edge sections, adjusting the size of the lobes to maintain symmetry.

These optional lobes help reproduce the decorative silhouette shown in the reference photograph.

Finish the green leaf

Fasten off and weave in the loose ends.

Gently flatten the leaf with your fingers.

If needed, lightly dampen and block it to establish the desired shape.

Add embroidered veins

Thread a yarn needle with brown embroidery yarn.

Create one central vein running from the stem area toward the main tip.

Add diagonal veins extending toward the side lobes.

Use short, even embroidery stitches.

The dark veins will make the leaf look more realistic and help emphasize its shape.

<https://creative.craftsforlove.com/> - SEE THE BEST PATTERNS

Step 8: Crochet the Medium Yellow Autumn Leaf 🍁

The medium yellow leaf is smaller than the green leaf and uses a foundation of 12 chains.

The reference chart gives the following sequence:

sc, hdc, dc, tr, dc, hdc, sc, sl st

The same sequence is repeated on the opposite side.

Foundation

With mustard yellow yarn:

Ch 12

Row 1: First side

Starting in the second chain from the hook, work:

sc, hdc, dc, tr, dc, hdc, sc, sl st

Three foundation chains remain.

Work a slip stitch into each of the next two chains.

In the final chain, work:

(sc, ch 2, sc)

This forms a small pointed end and prepares the work for the opposite side.

Opposite side

Turn the work around the foundation chain.

Work the following sequence along the opposite side:

sc, hdc, dc, tr, dc, hdc, sc, sl st

<https://creative.craftsforlove.com/> - **SEE THE BEST PATTERNS**

Place the stitches evenly and keep the fabric flat.

Create the leaf shape

The basic stitch sequence produces an elongated leaf.

To achieve the lobed appearance shown in the reference image, add several small decorative points.

At selected edge stitches, work:

sl st, ch 2, sc, sl st

Space these points around the leaf.

You can create two or three small lobes on each side.

Fasten off

Cut the yarn, leaving a tail approximately 10–15 cm long.

Pull the tail through the final loop and tighten.

Use the yarn needle to weave in the ends.

Add the leaf veins

Thread the yarn needle with brown embroidery yarn.

Embroider a central line from the bottom to the tip.

Add smaller diagonal lines toward the outer edges.

Keep the stitches relaxed so that the leaf remains flat.

The finished yellow leaf should be smaller than the green leaf and have a soft, warm golden appearance.

Step 9: Crochet the Small Orange Autumn Leaf 🍂

The third leaf is the smallest decorative element.

<https://creative.craftsforlove.com/> - **SEE THE BEST PATTERNS**

The reference chart begins with 10 chains and uses the following stitch sequence:

sc, hdc, dc, hdc, sc, sl st

This compact pattern creates a smaller, rounded leaf that complements the two larger pieces.

Foundation

Using burnt orange yarn:

Ch 10

Row 1: First side

Starting in the second chain from the hook, work:

sc, hdc, dc, hdc, sc, sl st

Three foundation chains remain.

Work a slip stitch into each of the next two chains.

In the final chain, work:

(sc, ch 2, sc)

Opposite side

Rotate the work.

Along the opposite side of the foundation chain, work:

sc, hdc, dc, hdc, sc, sl st

Keep the stitches even.

Shape the edges

<https://creative.craftsforlove.com/> - **SEE THE BEST PATTERNS**

For a more detailed autumn-leaf appearance, add small points along the edges.

Attach the yarn to an outer stitch.

Work:

sc, ch 2, sl st

Repeat at two or three additional locations.

These points should be smaller than those used for the green and yellow leaves.

Fasten off

Cut the yarn and secure the final loop.

Weave in all loose ends.

Gently shape the leaf with your fingers.

Embroider the veins

Use brown embroidery yarn to create a central vein.

Add two or three short diagonal veins on either side.

Because this leaf is small, avoid adding too many embroidery stitches.

The finished orange leaf should be compact, textured, and slightly pointed.

Step 10: Arrange and Attach the Crochet Leaves

The eighth stage of the reference chart shows the leaves attached around the wooden stem.

The green leaf sits toward the back, while the yellow leaf extends across the front-right area.

<https://creative.craftsforlove.com/> - **SEE THE BEST PATTERNS**

The smaller orange leaf can be positioned underneath or beside the larger leaves to create additional depth.

Arrange the leaves before attaching

Place the pumpkin on a flat surface.

Position the large green leaf behind the wooden stem.

Angle it slightly upward so that its pointed lobes remain visible.

Next, position the medium yellow leaf near the front of the stem.

Allow part of the yellow leaf to overlap the green leaf.

Finally, place the small orange leaf near the base of the arrangement.

Experiment with the positioning until the leaves appear balanced.

Attach the leaves

Use a small amount of foam-safe craft glue or suitable adhesive near the base of each leaf.

Press the leaves gently into place.

Avoid gluing the entire leaf surface. Leaving the tips free creates a more natural three-dimensional appearance.

For a removable arrangement, sew the leaves to the jute wrapping instead of gluing them directly to the pumpkin.

Add the final bow

Adjust the jute bow around the stem.

<https://creative.craftsforlove.com/> - **SEE THE BEST PATTERNS**

Allow the loose ends to fall naturally over the yarn-covered surface.

Trim the ends to the desired length.

Step 11: Final Shaping and Finishing Touches ✨

Your colorful yarn pumpkin is almost complete.

Take a few minutes to inspect the entire decoration.

Check the yarn surface

Rotate the pumpkin slowly and examine the colored sections.

Make sure that all strands remain close together.

If you notice a gap, add another matching yarn strand.

Secure any loose ends with a small amount of glue.

Adjust the crochet leaves

Gently bend and shape the leaves with your fingers.

The large green leaf should rise slightly behind the stem.

The yellow and orange leaves can rest closer to the pumpkin surface.

If the leaves curl excessively, lightly dampen them and allow them to dry flat before reattaching.

Check the stem

Make sure the wooden stick is firmly attached.

If it moves, add a little more adhesive at its base and allow it to cure according to the manufacturer's instructions.

Clean the finished project

<https://creative.craftsforlove.com/> - **SEE THE BEST PATTERNS**

Remove loose yarn fibers, stray threads, and visible glue residue.

Use a soft brush or your fingers to smooth the surface.

Your finished pumpkin should feature:

- A completely yarn-covered body with vertical autumn-colored stripes
- A rustic wooden stem
- Natural jute twine wrapped around the stem
- A large green crocheted leaf
- A medium yellow crocheted leaf
- A small orange crocheted leaf
- Brown embroidered leaf veins

Step 12: How to Display and Care for Your Handmade Yarn Pumpkin

The finished Crochet-Style Yarn Pumpkin makes a beautiful addition to seasonal home décor.

Place it in the center of a dining table with a few smaller pumpkins, dried leaves, and pinecones.

You can also display it on a mantel, entryway shelf, or covered porch protected from moisture.

For a Thanksgiving arrangement, combine the pumpkin with cream-colored candles, wooden accents, and natural greenery. Use battery-operated candles rather than placing open flames close to the yarn or foam.

Caring for your pumpkin

Keep the decoration away from direct sunlight, excessive heat, and damp conditions.

<https://creative.craftsforlove.com/> - **SEE THE BEST PATTERNS**

To remove dust, use a soft brush or a vacuum with a gentle upholstery attachment.

Avoid soaking the pumpkin because moisture may weaken the adhesive or damage the foam base.

After the fall season, store the decoration in a clean cardboard box.

Wrap it loosely in tissue paper to protect the crochet leaves from bending.

With proper care, your handmade yarn pumpkin can be reused for several autumn seasons.

Frequently Asked Questions About the Crochet-Style Yarn Pumpkin Pattern

Is the entire pumpkin crocheted?

No. The pumpkin body is created by wrapping strands of yarn around a foam pumpkin. Only the decorative leaves are crocheted. This is the same construction method demonstrated in the reference chart.

What is the best yarn for this project?

Medium-weight Category 4 acrylic or cotton yarn works well. Acrylic is lightweight and widely available, while cotton provides a slightly firmer texture. Using yarns of similar thickness helps produce even coverage.

Can I make this pumpkin without a foam base?

Yes. You can sew a fabric pumpkin, fill it with polyester fiberfill, and wrap the yarn around the stuffed shape. A firm, well-shaped base gives the best results.

How much yarn will I need?

<https://creative.craftsforlove.com/> - **SEE THE BEST PATTERNS**

The amount depends on the pumpkin size, yarn thickness, and strand spacing. For an 18–22 cm pumpkin, a combined total of approximately 100–200 g of medium-weight yarn is a reasonable starting allowance, although actual consumption may vary.

Can beginners make the crochet leaves?

Yes. The leaves use basic U.S. crochet stitches, including chain, slip stitch, single crochet, half double crochet, double crochet, and treble crochet. Beginners should practice the individual stitches before working on the leaf shapes.

Why do my crochet leaves curl?

Curling may occur when stitches are worked too tightly or when too many stitches are placed in one area. Try using a slightly larger hook, adjusting stitch spacing, or blocking the finished leaves.

Can I change the colors?

Absolutely. Traditional orange and cream, neutral beige and brown, or even pastel shades can create beautiful variations. The construction technique remains the same.

Is hot glue necessary?

No. Foam-safe craft glue is a suitable alternative. If using hot glue, choose a low-temperature glue gun and test it first because some foam materials are sensitive to heat.

Conclusion: Create a Beautiful Handmade Fall Pumpkin

The Crochet-Style Yarn Pumpkin Pattern is a rewarding seasonal project that brings together colorful yarn wrapping, basic crochet techniques, and rustic decorative details.

<https://creative.craftsforlove.com/> - **SEE THE BEST PATTERNS**

By following the construction stages—from preparing the foam base and attaching the yarn strands to creating the wooden stem and crocheting three autumn leaves—you can make a charming fall decoration inspired by the reference design.

The best part is that every pumpkin can be unique. Experiment with different yarn combinations, leaf sizes, and rustic embellishments to create a handmade decoration that suits your home.

Whether you display it for Thanksgiving, use it as a farmhouse centerpiece, or give it as a thoughtful handmade gift, this colorful yarn pumpkin is a lovely way to celebrate autumn with creativity and warmth. 🍂🍁
